Mr. Anthony Vergnetti  
Federal Employee Defense Services  
P.O. Box 65282  
Washington, DC 20035

Dear Mr. Vergnetti:

On behalf of our Board of Directors and nationwide membership, I would like to take this opportunity to provide you with the FWFSA's endorsement of your new professional liability product.

This endorsement comes with the recognition of your exemplary support and representation of federal wildland firefighters involved in both the Thirty Mile & Cramer incidents. Your intimate knowledge of the issues facing our federal wildland firefighters as well as the variety of benefits provided under your plan clearly demonstrates your intent to provide federal wildland firefighters and all federal employees with the best possible protection.

We are honored to partner with you in an effort to educate our members and others on the superior benefits offered through FEDS. As we work with you on behalf of our Nation's federal wildland firefighters we will continue to work with the federal land management agencies and congress to alleviate the burden of "unintended consequences" resulting from PL 107-203.

Again, thank you for the opportunity to share this new PLI product with our members and others. We truly believe it provides superior benefits and protection for those who may need professional liability insurance.

With Warm Regards,

Casey Judd  
Business Manager
